

src/main/resources/JCunit-logo.png is a model based testing tool powered by combinatorial testing techniques.

Current version of JCUnit (0.8.x) is not compatible with older versions anymore. Users who need to use older ones, please refer to <https://github.com/dakusui/jcunit/wiki/0.7.xJCUnit-0.7.x>.

In this document, the new version is called “JCUnit8” to tell it from older ones when necessary.

About 0.8.x about-0.8.x

0.8.x and later is actively being developed right now and called JCUnit8. It requires Java SE8.

Major changes have been introduced in 0.8.x including move to Java 8, redesigning pipeline mechanism, renewed annotations, etc., most of which are incompatible with older versions.

Installation and how to use it. installation-and-how-to-use-it.

Please use following dependencies to use JCUnit8.
